# Additional Channels/Recommendations:

- Link Building –New users can be targeted via links from sites that they visit and hence it helps to build the credibility of DMND.
- Affiliate Marketing -New Users can be targeted via affiliate marketing
- Email marketing-We could use emails to target users in the interest/Desire stage
- Non Paid channels-like Social Media for users in the interest stage
- Interactive marketing –Webinars can be organised for users in the interest/Desire stage which can help to get these users to sign up for DNND
- Offline events –Events/Seminars can be used to get more users

### DIGITAL MARKETING

Digital Marketing Today is bigger than it ever was and is here to stay and grow exponentially. Undoubtedly one of the hottest disciplines of today's times, its dynamic nature will keep you on your toes and a part to constant learning and discovery.

Today everyone is online and everything is Online. Digital marketing consequently allows you to connect with all kinds of audience groups across the world. This has broken the boundaries of language, demographic and geography and resulted in a complete change in Consumer Behaviour.

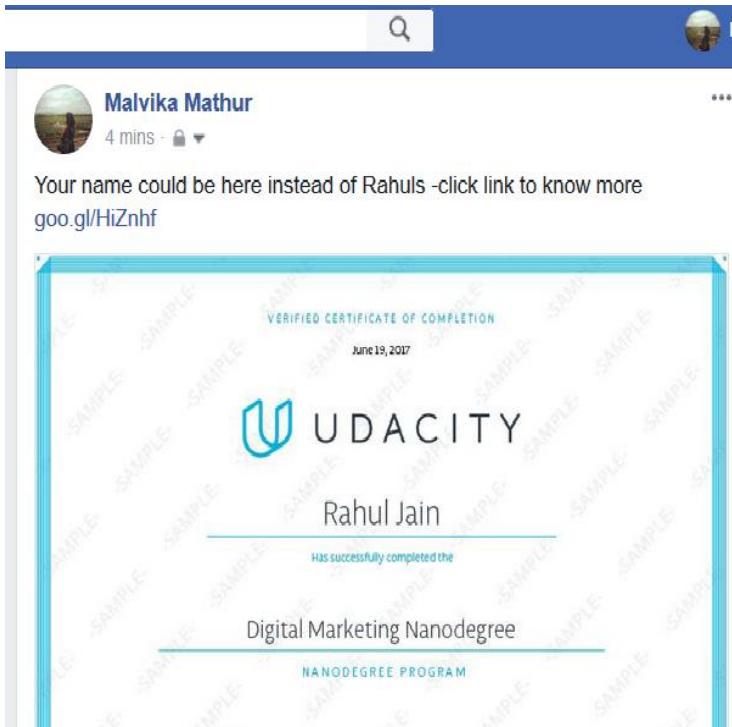

This paradigm shift from traditional ways of reaching customers may seem overwhelming at first for anyone who aspires to join digital marketing, however even experts in the field have to learn new things every day to stay up to date. Digital marketing professionals are perpetually learning, researching and making use of research and new tools to keep up with the changing and ever evolving discipline. So you aren't too far behind to dive into this field TODAY.

Digital Marketing has become the need of the hour and no business can afford to ignore it. This need has created a huge demand for Digital Marketing professionals globally and made it one of the most sought after careers today.

With a plethora of courses being offered, it is important to look out for a course that shall give a strong foundation for anyone who wants to start a career in digital marketing along with hands on experience which is imperative to this field.

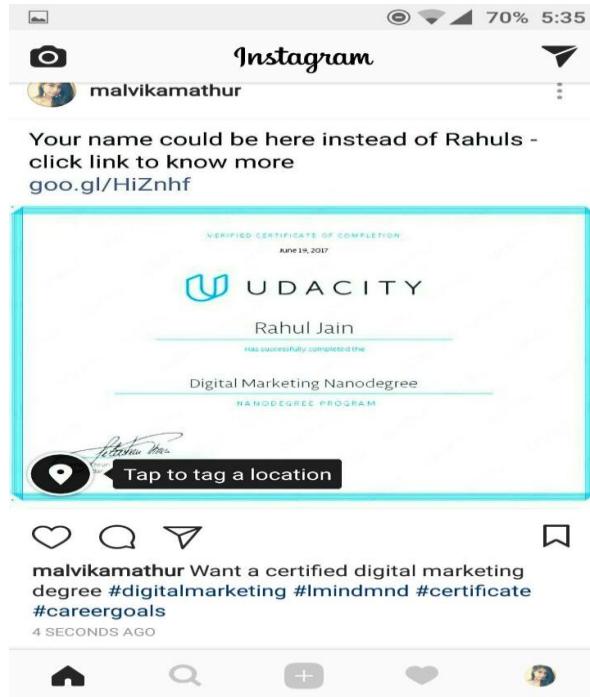

After much research and contemplation, The Digital Marketing Nanodegree by Udacity was a clear winner for me. It is ideal for anyone who is looking at a career advancement, switch or just transitioning in digital marketing. It provides a well designed learning path in areas of digital marketing and each of its modules are carefully crafted and designed by some of the leading professionals in the industry. What gives the Digital Marketing Nanodegree an edge from similar courses that are offered is that it is taught by experts. The instructors have vast

# Recommendations

- 1) Having Indexed pages-it is very important that- <http://dmnd.udacity.com/> is indexed as it helps search engines to know what is the site about and accordingly send relevant traffic to the site. Pages/websites that are not indexed get much any traffic. Currently no pages are indexed and hence we know that the health of the site is very poor which will result in no traffic to the above mentioned site.
- 2 ) Mobile presence for Speed test-was unavailable. With the growing number of customers becoming mobile friendly , it would be a good idea to have a speed test results for mobile version of dmnd.udacity.com's. Currently the speed test is not available. A good in speed test for the mobile version of dmnd.udacity.com's will also help to improve customer experience. As google takes into account mobile friendliness as an important criteria for page ranking,it is critical to have an movile optimized page.Also today most people access any site via mobile has increased and is still growing ,therefore it has become the need of the hour.
- 3) Link building-having links from more high traffic and relevant sites keeping in mind target audience .Link building also helps to add authenticity to a website from the users perspective if the links to a site are from trusted sources or websites .For <http://dmnd.udacity.com/> links from some high traffic websites which are from trust worthy websites with relevant content is missing. Along with this it is important to have links that are diverse too as it helps to reach different customers who may be present on different sites and hence increase the pool of customers.

# Approach Description – Course –Free Deep Learning Country-United Kingdom

- As Deep Learning as a course is only taken after taking up Machine learning ,targeting in not very generic -i.e these ad sets are for a very specific group of people. The Target Audience-industrial engineers, researchers ,mechanical engineers, programmers, coders, developers, data science experts and students who have completed Machine Learning course.
- 2 Ad Groups were created-targeting different stages in a customer journey-1)Awareness 2)Interest
- Different ad group had 2 different ads, with different Headlines and Description
- Keywords for the same ad group are identical-same keywords for targeting the each group of our target audience depending on their customer journey.
- Keywords for the 1 st ad group-Awareness are more general and target those who are just new to this field  
Keywords for the 2<sup>nd</sup> group-interest stage focus on details that people may search for once they know and fully understand deep learning and want to advance their career in the field .
- Daily budget-15 \$ per day
- Keyword selection-mixed keywords-long tail ,head keywords ,branded ,non branded with Exact match type and Phrase match

<i>Ad Group 1, Ad 1-Interest</i>	16	3.25%	2.36	0	NA	NA
<i>Ad Group 1, Ad 2-interest</i>	1	0.18 %	2.43	0	NA	NA
<i>Ad Group 2, Ad 1-Awareness</i>	5	0.64%	2.05	0	NA	NA
<i>Ad Group 2, Ad 2-Awareness</i>	18	1.13%	2.83	0	NA	NA

# Campaign Evaluation

- The Campaign was not successful as we did not have any conversions (which was sign up for the free Deep learning course in 5 days)
- The Campaign got a total of 40 clicks ,however none of the people who were clicking registered for the free course. The Average CPC was 2.57 which is lower than the MAX CPC which was 3 \$ but close enough to it .However effort to make the CPC to be lower ,could have helped the campaign. The impressions were 3430 ,a higher number of audience could be targeted which would lead to higher impressions .
- The Awareness ad group did better overall than the interest Ad group as it had higher number of clicks as it had higher number of clicks and keywords chosen were more generic
- The Keywords that performed better than the rest are [Deep learning],Deep Learning with Tensor Flow,Machine Learning Engineers which were more generic in this case as deep learning as a course is advance course after machine learning.

# Recommendations for future campaigns

- As seen both ad groups did not get any conversion, most of the keywords selected were exact match or phrase match and might have been too specific for a course like deep learning and keywords that aren't exactly searched for ,hence maybe using broad match could have been better here.
- Most keywords that got clicks had high competition and other keywords could have been used in their place
- Run A/B test for other factors such as headline, body of ad, target audience .
- Use negative keywords which will help to filter words that ensure that the ad does not show up for few words.
- Monitor the campaign and tweak the not performing ad groups.
- Improve the Landing page -clearly give a USP for taking the Deep learning course .
- Optimizes the landing page for mobile device as well.

# How would you optimize this campaign?

**Three** suggestions to improve this campaign. (Answers might include things like: A/B testing, different creative, adding or removing keywords, etc...)

Suggestion 1: Different video creative should be run for both ads

Suggestion 2: Modify keyword list -Branded creatives and long tail keywords

Suggestion 3: Call to action in the video

# Recommendations for future campaigns

- Having more ad groups for the campaign ,each group should have more ads which helps to run different versions of the ad and target different customers
- Use more long tail & branded keywords for display ads
- Try different body which is more concise & compelling for the display ad
- Use a different creative for the display ad
- Use a different video creative for the video ad
- A clearer message regarding the call to action that we want the person seeing the ad

- The campaign that performed better was the Display Video campaign as the ROI is higher, the Display image campaign & display Video campaign had the same number of student sign up which was the ultimate marketing objective (4 new students signed up for both), however display video campaign got a higher ROI ,higher CTR and lower CPA.
